DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/30/2005 has been entered.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art teaches the use of a closed circuit video system in which a plurality of cameras are connected. The prior art further teaches the use of a circuit responsive to the video signals from the cameras. However, the prior art does not teach wherein the circuit comprises a shared image store operative in conjunction with an associated one of the video signals produced by a corresponding one of the cameras, the camera store implementing a multi-function shared store for the associated video signal, through which the image store provides video storage functionality to support both a predefined image store operation and a predefined image processing operation by selectively operating in a first or second mode, such that the shared image store eliminates a need to have a separate frame store memory situated within or proximate to the corresponding camera.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
